

Krishna Sai Teja Sandalla

krishnasaiitejasandalla@gmail.com | +91 9392979366 | Vadodara, Gujarat, India | [GitHub](#) | [LinkedIn](#)

PROFILE

Passionate and self-driven Computer Science Engineering student specializing in Artificial Intelligence with a strong interest in Full-Stack Development, Software Engineering, and AI-powered applications. Experienced in building modern web applications using Next.js, React, TypeScript, Node.js, and databases such as PostgreSQL and MongoDB. Constantly exploring emerging technologies and building real-world projects that solve practical problems. Seeking opportunities to contribute to innovative teams while continuously learning and growing as an engineer.

EDUCATION

Parul University, Vadodara, Gujarat — B.Tech in Computer Science & Engineering (Artificial Intelligence) — CGPA: 8.0/10 — 2023–2027

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, TypeScript

Frontend Development: HTML5, CSS3, React.js, Next.js, Tailwind CSS, Responsive Design

Backend Development: Node.js, Express.js, REST APIs, Server Actions, Authentication Systems

Databases & ORMs: MySQL, MongoDB, PostgreSQL, Drizzle ORM

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel

AI & Emerging Tech: AI Fundamentals, Prompt Engineering, AI-Assisted Development, Generative AI Concepts

PROJECTS

School Management System (Full-Stack ERP)

(Ongoing)

Next.js, TypeScript, Tailwind CSS, PostgreSQL, Drizzle ORM, Better Auth

- Building a comprehensive School ERP with dedicated Admin, Teacher, Student, and Parent portals.
- Implementing attendance management, examinations, assignments, notifications, and performance analytics.
- Following scalable architecture with SSR, Server Actions, and modular code organization.
- Designing a production-ready dashboard with role-based authentication.

Delivor Backend – Food Delivery API

Node.js, Express.js, MongoDB, JavaScript

- Developed backend services for a food delivery platform including RESTful APIs for authentication, users, and orders.
- Implemented database models and business logic using MongoDB; strengthened API design skills.

Spotify Clone

React.js, JavaScript, CSS

- Built a responsive Spotify-inspired music streaming interface with reusable components and interactive UI.
- Implemented state management and responsive layouts; improved frontend architecture and component design skills.

Echoes – Accessibility Platform

HTML, CSS, JavaScript

- Developed a platform helping deaf and mute individuals communicate more effectively.
- Focused on accessibility, user-friendly design, and intuitive interfaces to improve inclusivity.

Traveloop (Lokavista)

HTML, CSS, JavaScript

- Developed a travel planning and booking platform with destination exploration and trip planning features.

- Focused on improving user experience and navigation design.

AI & Machine Learning Models

Python, Machine Learning Libraries

- Built and experimented with multiple AI and Machine Learning models.
- Explored data preprocessing, model training, and evaluation techniques; strengthened practical AI understanding.

ACHIEVEMENTS & INTERESTS

- Built multiple full-stack and frontend applications while pursuing undergraduate studies.
- Actively learning modern software engineering practices and scalable system design.
- Passionate about Artificial Intelligence, Web Development, and emerging technologies.
- Regularly contribute to personal projects and continuously improve technical skills.

LANGUAGES

English (Fluent) | Hindi (Fluent) | Telugu (Native) | Tamil (Conversational)

EXTRA-CURRICULAR ACTIVITIES & HOBBIES

- Playing Football and following the sport closely.
- Reading books and technology-related content.
- Watching documentaries, movies, and anime.
- Exploring new technologies and building side projects.
- Learning through hands-on projects and experimentation.
