

KRISHNA SAI TEJA SANDALLA

Full Stack Developer | AI Enthusiast

krishnasaitejasandalla@gmail.com | +91 9392979366 | Vadodara, Gujarat, India

[GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFILE SUMMARY

Computer Science Engineering student specializing in Artificial Intelligence with hands-on experience building scalable full-stack applications, AI-powered solutions, and SaaS platforms. Skilled in modern web technologies including React, Next.js, TypeScript, Node.js, PostgreSQL, and AI integration. Passionate about designing production-ready systems, intuitive user experiences, and solving real-world problems through technology.

EDUCATION

Parul University, Vadodara, Gujarat — B.Tech in Computer Science & Engineering (Artificial Intelligence)

CGPA: 8.0/10 | 2023 – 2027

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, JavaScript, TypeScript

Frontend Development: HTML5, CSS3, React.js, Next.js, Tailwind CSS, GSAP, Responsive Design

Backend Development: Node.js, Express.js, REST APIs, Server Actions, Authentication Systems, API Development

Database & ORM: PostgreSQL, MongoDB, MySQL, Drizzle ORM

AI / Machine Learning: Python, Machine Learning Fundamentals, Generative AI, Prompt Engineering, AI-Assisted Development

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel

PROJECTS

EduPredict – AI Powered School Management SaaS Platform (Ongoing)

Tech Stack: Next.js, TypeScript, Tailwind CSS, PostgreSQL, Drizzle ORM, Better Auth, AI Integration

- Developing a scalable SaaS-based school management platform to digitize academic and administrative operations.
- Building separate role-based portals for Admin, Teachers, Students, and Parents.
- Implementing attendance, examinations, assignments, notifications, analytics dashboards, and performance tracking.
- Designing secure authentication and authorization using a modern full-stack architecture.
- Integrating AI-driven insights to help educators understand student performance and improve decision-making.

Soccer Fits – Premium Football Jersey Experience Website (Ongoing)

Tech Stack: Next.js, React, Tailwind CSS, GSAP, Three.js

- Building an immersive luxury football jersey platform inspired by premium brand experiences.
- Developing cinematic scroll-driven animations using GSAP and frame-based storytelling.
- Creating interactive product storytelling instead of traditional e-commerce layouts, with glassmorphism and parallax effects.

Delivor – Food Delivery Backend API

Tech Stack: Node.js, Express.js, MongoDB

- Developed backend services for a food delivery application, including REST APIs for authentication, users, restaurants, and orders.
- Designed database schemas and implemented core backend business logic.

Spotify Clone

Tech Stack: React.js, Tailwind CSS, Context API, JavaScript

- Built a responsive Spotify-inspired music streaming interface with reusable components and global state managed via Context API.

Echoes – Accessibility Communication Platform

Tech Stack: HTML, CSS, JavaScript

- Developed an accessibility-focused platform helping deaf and mute individuals communicate effectively, with a focus on inclusive design.

AI & Machine Learning Models

Tech Stack: Python, Machine Learning Libraries

- Built and experimented with machine learning models, covering data preprocessing, model training, and evaluation techniques.

CERTIFICATIONS

Getting Started with Gemini — Great Learning Academy

Prompt Engineering for ChatGPT — Great Learning Academy

Career Edge – Young Professional — Tata Consultancy Services (TCS iON)

Data Visualisation: Empowering Business with Effective Insights — Tata / Forage Virtual Experience

ACHIEVEMENTS / ADDITIONAL

- Built multiple full-stack applications combining frontend, backend, databases, and AI technologies.
- Maintains an active GitHub profile (14+ repositories) and a personal developer portfolio showcasing live projects.
- Continuously exploring AI, SaaS development, and emerging technologies.
